

# EXCEL

## Tack and Tar Remover

**EXCEL**, originally developed for a regional paving company, attacks and removes tack and tar from heavy machinery, equipment, hard surfaces and vehicles. **Yes, that's right, tack and tar!** Don't settle for a mediocre, labor-intensive solution. **EXCEL** is designed to loosen this nightmare by getting under the surface, making removal much easier.

**INDUSTRY LEADING  
PRODUCT**

**TACT & TAR  
REMOVER**

**THIS CHALLENGE IS A  
THING OF THE PAST**

**USEFUL IN A VARIETY  
OF APPLICATIONS:  
VEHICLES, HEAVY  
MACHINERY,  
EQUIPMENT, AND  
HARD PAN SURFACES**

**YOU WILL BE AMAZED  
WITH YOUR RESULTS**

### Product Uses:

Use to remove tack, tar, and coal tar	Vehicles, hard surfaces, driveways, streets, machinery, tools, and more.
---------------------------------------	--

## Recommendations For Use

Although petroleum based, **EXCEL** activates with water. It clings to the contaminant and begins to lift it from the surface.

### Removal from Trucks and Cars:

- Spray **EXCEL** onto the area and after a minute or two
- Simply wipe away with a damp non-scratch pad

If the tack remains, increase the density of **EXCEL** to water ratio and repeat the process.

### Removal from heavy machinery, equipment, driveways and hard pan:

- Spray **EXCEL** onto the area
- Wait 5 minutes to allow **EXCEL** to work its magic
- Power wash away the tack and tar

Apply **Power Clean Blue** to the cleaned area to remove any remaining oily residue.

### Product Specs:

Item #	Size	Qty
0366XL1	1 gal	1
0366XL5	5 gal	1
0366XL55	55 gal	1

### Technical Data:

VOC Content	5.1 lbs/gal
Grams Per Liter	610
Flashpoint	<0° F TCC
CA Compliant	Yes

Ref 123117

Manufactured by Allied Chem
