

# MULTI METAL

## Deep Cleaner & Metal Rejuvenator

**Multi Metal** Cleaner & Polish is a deep cleaner and metal rejuvenator. It brings back and maintains the high-end look of all of your metal surfaces whether they be stainless steel, chrome, copper, brass, aluminum, or nickel.

**Multi Metal** Cleaner & Polish is easy to apply and works in seconds leaving behind a smooth polished surface.

### Product Uses:

General Cleaning:	Stainless Steel, Chrome, Copper, Brass, Aluminum, and Nickel, and more
-------------------	--

## Product Details

- Digs deep to get under and lift out old oxidized stains, leaves the surface with a high-end polish
- Rejuvenate metal surfaces
- Removes oxidation & dulled tarnishes from metals, to like new condition
- Conditions the metals to help resist further tarnishing
- For restaurants, breweries, manufacturing plants, metal fabrication & more
- Used by hand or for very large areas, use a buffer
- It does the hard work for you

## Recommendations For Use

- Dispense a small amount of **Multi Metal** Cleaner & Polish onto a microfiber towel
- Apply it to the metal area and leave it for one minute
- Begin wiping the surface back and forth or in a circle until you see metal come clean
- Once it is clean, buff lightly using a dry clean towel
